

# ASSA ABLOY

# **SAFETY DATA SHEET**

# **PYROPANEL 303**

Infosafe No.: LQBIE ISSUED Date : 13/12/2022 ISSUED by: ASSA ABLOY AUSTRALIA PTY LTD

## Section 1 - Identification

Product Identifier PYROPANEL 303

Company Name ASSA ABLOY AUSTRALIA PTY LTD (ABN 90 086 451 907)

Address 235 Huntingdale Road Oakleigh VIC 3166 Australia

Telephone/Fax Number Tel: 03 9837 8500

Emergency Phone Number +613 9837 8500 (24 hours)

E-mail Address sales@pyropanel.com.au

**Recommended use of the chemical and restrictions on use** Adhesives

# Section 2 - Hazard(s) Identification

#### GHS classification of the substance/mixture

Not classified as Hazardous according to the Globally Harmonised System of Classification and Labelling of Chemicals (GHS) including Work, Health and Safety regulations, Australia.

Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail. (7th edition)

# Section 3 - Composition and Information on Ingredients

#### Ingredients

Name	CAS	Proportion
Ingredients determined not to be hazardous, including water.		100 %

#### Information on Composition

Synthetic polymer emulsion of polyvinylacetate in water.

# Section 4 - First Aid Measures

#### Inhalation

If inhaled, remove affected person from contaminated area. Keep at rest until recovered. If symptoms develop and/or persist seek medical attention.

#### Ingestion

Do not induce vomiting. Wash out mouth thoroughly with water. Seek medical attention.

#### Skin

Wash affected area thoroughly with soap and water. If symptoms develop seek medical attention.

#### Eye

If in eyes, hold eyelids apart and flush the eyes continuously with running water. Remove contact lenses. Continue flushing for several minutes until all contaminants are washed out completely. If symptoms develop and/or persist seek medical attention.

#### **First Aid Facilities**

Eyewash and normal washroom facilities.

#### Advice to Doctor

Treat symptomatically.

#### **Other Information**

For advice in an emergency, contact a Poisons Information Centre (Phone Australia 131 126) or a doctor at once.

## **Section 5 - Firefighting Measures**

#### Suitable Extinguishing Media

Carbon dioxide, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.

#### **Hazards from Combustion Products**

Under fire conditions this product may emit toxic and/or irritating fumes, smoke and gases including ethanoic acid, carbon monoxide, carbon dioxide and oxides of nitrogen.

#### Specific hazards arising from the chemical

This product can burn if exposed to fire.

#### **Decomposition Temperature**

Not available

#### Precautions in connection with Fire

Fire fighters should wear Self-Contained Breathing Apparatus (SCBA) operated in positive pressure mode and full protective clothing to prevent exposure to vapours or fumes. Water spray may be used to cool down heat-exposed containers. Fight fire from safe location. This product should be prevented from entering drains and watercourses.

#### **Section 6 - Accidental Release Measures**

#### **Emergency Procedures**

Wear appropriate personal protective equipment and clothing to prevent exposure. Increase ventilation. If possible contain the spill. Place inert absorbent material onto spillage. Collect the material and place into a suitable labelled container. Do not dilute material but contain. Dispose of waste according to the applicable local and national regulations. If contamination of sewers or waterways occurs inform the local water and waste management authorities in accordance with local regulations. As a water based product, if spilt on electrical equipment the product will cause short-circuits.

#### Section 7 - Handling and Storage

#### Precautions for Safe Handling

Avoid inhalation of vapours and mists, and skin or eye contact. Use only in a well ventilated area. Keep containers sealed when not in use. Prevent the build up of mists or vapours in the work atmosphere. Maintain high standards of personal hygiene i.e. Washing hands prior to eating, drinking, smoking or using toilet facilities.

#### Conditions for safe storage, including any incompatibilities

Store in a cool, dry, well-ventilated area, out of direct sunlight. Store in suitable, labelled containers. Keep containers tightly closed. Protect from freezing. Store away from incompatible materials. Ensure that storage conditions comply with applicable local and national regulations.

# **Section 8 - Exposure Controls and Personal Protection**

#### **Occupational exposure limit values**

No exposure standards have been established for the mixture. However, over-exposure to some chemicals may result in enhancement of pre-existing adverse medical conditions and/or allergic reactions and should be kept to the least possible levels.

#### **Biological Monitoring**

No biological limits allocated.

# Control Banding

Not available

#### **Engineering Controls**

Use with good general ventilation. If mists or vapours are produced, local exhaust ventilation should be used.

#### **Respiratory Protection**

If engineering controls are not effective in controlling airborne exposure then an approved respirator with a replaceable vapor/ mist filter should be used. Refer to relevant regulations for further information concerning respiratory protective requirements. Reference should be made to Australian Standards AS/NZS 1715, Selection, Use and Maintenance of Respiratory Protective Devices; and AS/NZS 1716, Respiratory Protective Devices, in order to make any necessary changes for individual circumstances.

#### **Eye and Face Protection**

Safety glasses with side shields, chemical goggles or full-face shield as appropriate should be used. Final choice of appropriate eye/ face protection will vary according to individual circumstances. Eye protection devices should conform to relevant regulations. Eye protection should conform with Australian/New Zealand Standard AS/NZS 1337 (series) - Eye Protectors for Industrial Applications.

#### **Hand Protection**

Wear gloves of impervious material. Final choice of appropriate gloves will vary according to individual circumstances i.e. methods of handling or according to risk assessments undertaken. Occupational protective gloves should conform to relevant regulations. Reference should be made to AS/NZS 2161.1: Occupational protective gloves - Selection, use and maintenance.

#### **Thermal Hazards**

No further relevant information available.

#### **Body Protection**

Suitable protective workwear, e.g. cotton overalls buttoned at neck and wrist is recommended. Chemical resistant apron is recommended where large quantities are handled.

#### **Section 9 - Physical and Chemical Properties**

Properties	Description	Properties	Description
Form	Liquid	Appearance	Liquid
Colour	White	Odour	Characteristic
Melting Point	Not available	Boiling Point	100°C
Decomposition Temperature	Not available	Solubility in Water	Fully miscible
рН	3 (20°C) (approximate)	Vapour Pressure	23hPa (20°C)
Relative Vapour Density (Air=1)	Not available	Evaporation Rate	Not available
Odour Threshold	Not available	Viscosity	13.000 mPas (approximate)(20 °C)
Volatile Component	Not available	Partition Coefficient: n- octanol/water (log value)	Not available
Density	1.1 g/cm <sup>3</sup> (20°C) (approximate)	Flash Point	Not applicable
Flammability	Non flammable	Auto-Ignition Temperature	The product is not self-igniting.
Flammable Limits - Lower	Not applicable	Flammable Limits - Upper	Not applicable
Explosion Properties	Product does not present an explosion hazard.	Oxidising Properties	Not available
Particle Characteristics	Not applicable		

# Section 10 - Stability and Reactivity

#### Reactivity

Not available

#### Chemical Stability

Stable under normal conditions of storage and handling.

#### **Possibility of hazardous reactions** No dangerous reactions known.

**Conditions to Avoid** Direct sunlight. Protect from freezing.

# Incompatible Materials

Not available

# Hazardous Decomposition Products

Thermal decomposition may result in the release of toxic and/or irritating fumes including ethanoic acid , carbon monoxide, carbon dioxide and oxides of nitrogen.

# Hazardous Polymerization

Will not occur.

# Section 11 - Toxicological Information

# **Toxicology Information**

No toxicity data available for this material.

# Ingestion

Ingestion of this product may irritate the gastric tract causing nausea and vomiting.

# Inhalation

Inhalation of product vapours may cause irritation of the nose, throat and respiratory system.  $_{\mbox{Page 4/7}}$ 

#### Skin

May be irritating to skin. The symptoms may include redness, itching and swelling.

Eve

May be irritating to eyes. The symptoms may include redness, itching and tearing.

#### **Respiratory Sensitisation** Not expected to be a respiratory sensitiser.

**Skin Sensitisation** Not expected to be a skin sensitiser.

**Germ Cell Mutagenicity** Not considered to be a mutagenic hazard.

Carcinogenicity Not considered to be a carcinogenic hazard.

**Reproductive Toxicity** Not considered to be toxic to reproduction.

**STOT - Single Exposure** Not expected to cause toxicity to a specific target organ.

# **STOT - Repeated Exposure**

Not expected to cause toxicity to a specific target organ.

**Aspiration Hazard** Not expected to be an aspiration hazard.

# Section 12 - Ecological Information

#### Ecotoxicity No ecological data available for this material.

Persistence and degradability Not available

Mobility Not available

**Bioaccumulative Potential** Not available

**Other Adverse Effects** Not available

#### **Environmental Protection** Prevent this material entering waterways, drains and sewers.

#### Hazardous to the Ozone Layer

This product is not expected to deplete the ozone layer.

# Section 13 - Disposal Considerations

#### **Disposal Considerations**

The disposal of the spilled or waste material must be done in accordance with applicable local and national regulations. To minimise personal exposure, refer to Section 8 - Exposure Controls and Personal Protection.

# Section 14 - Transport Information

#### **Transport Information**

Road and Rail Transport (ADG Code): Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG Code) (7th edition).

Marine Transport (IMO/IMDG): Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea.

Air Transport (ICAO/IATA): Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Product Name: PYROPANEL 303 Page 5 / 7

Dangerous Goods Regulations for transport by air.

ADG U.N. Number None Allocated

ADG Proper Shipping Name None Allocated

ADG Transport Hazard Class None Allocated

Special Precautions for User Not available

IMDG Marine pollutant No

Transport in Bulk Not available

# Section 15 - Regulatory Information

#### **Regulatory Information**

Not classified as Hazardous according to the Globally Harmonised System of Classification and labelling of Chemicals (GHS) including Work, Health and Safety regulations, Australia.

Not classified as a Scheduled Poison according to the Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP).

Poisons Schedule Not Scheduled

Montreal Protocol Not listed

Stockholm Convention Not listed

Rotterdam Convention Not listed

International Convention for the Prevention of Pollution from Ships (MARPOL) Not available

Agricultural and Veterinary Chemicals Act 1994 Not listed

Basel Convention Not listed

# Section 16 - Any Other Relevant Information

#### **Date of Preparation**

SDS created: December 2022
